

DO YOU SELL VOLATILE SUBSTANCE PRODUCTS?

There are a range of volatile substance products that are purchased or stolen for the purpose of misuse. These may include:

Solvents/toluene based products

Various aerosols

Butane products

Cigarette lighter refill
Gas cartridges for camping stoves

Nitrous oxide

Whipping cream gas bulbs

Under **Section 206** of the **Western Australian Criminal Code** it is against the law to supply intoxicants to people likely to use them for the purpose of intoxication. See the **Code of Conduct – Supply of Volatile Substances** for more information on how you can sell these products responsibly.
